## 2020—Let's Celebrate FIVE!

By: Jessa Brixius, Manager of The KBS Dystonia

This year is extra special as will be celebrating our fifth birthday AND with that, comes our fifth annual, "Kites2Kure" Dystonia Event taking place on Sunday, May 31st, 2020 at Providence Academy in Plymouth, Minnesota! Join us for a fun, family-filled day of kite-flying, face painting, LIVE music, food, ice cream, and MORE! We hope to see you there!

### An Update From The Neurology Team

By: Dr. Jerrold Vitek and Dr. Joshua Aman  
University of Minnesota Research

With your support, we successfully expanded our data collection capabilities in the operating room, aimed at recording from multiple locations within the brain simultaneously, all while performing tasks related to motor output or cognition. We have successfully expanded our clinical research team this past year with diverse, exceptionally qualified scientists. We also are looking to expand collaborations, both within the U of M and externally, in order to increase our patient/subject count. Lastly, we will continue with our patient education and outreach, as we deem this very important to both our clinical and research programs in Dystonia. Thanks again for your continued support and we look forward to providing further updates as we continue to grow together as a team.

The Kurt B. Seydow Dystonia Foundation, a registered 501(c)(3) donates 100% of their proceeds to The University of Minnesota Neurology Department
